

20kWh Battery Vertical Touchscreen

Supports intelligent Bluetooth WiFi connectivity, aerosol fire protection
Active current balancing for 3A, efficient energy storage for longer duration

Product features

- It can be used in parallel with multiple units, is easily plug-and-unplug, and is convenient for expansion.
- Natural cooling can reduce the power consumption of the entire model.
- Selecting A-grade battery cells, the service life can last up to 10 years.
- The modular design is easy to install and maintain.
- The chemical composition of lithium iron phosphate eliminates the risks of explosion or combustion caused by high impact, overcharging or short circuit.
- The high-definition touch display is designed to be more convenient to use.
- The vertical design enables it to be stably placed on the ground or in a corner, without occupying too much floor space.
- Large capacity, high cycle, safe and stable

The connection of the solar system

Project	Specification	Note
Product Specifications		
Nominal Voltage	48V	
Total Battery Capacity	19.68KWH	
Cell Configuration	15S2P	
Max Continuous Charge Current	200A	
Overcharge Protection Voltage	55V	
Max Continuous Discharge Current	200A	
Discharge Cut-off Voltage	40V	
Over-discharge Protection Voltage	38V	
Charge Temperature	0~55°C	
Discharge Temperature	-10~60°C	
Storage Temperature	-20~45°C One month	15~35°C Three months
Operating Humidity	10%~90%RH No condensation	
Storage Humidity	5%~95%RH No condensation	
Net Weight	Approximately 162 KG	
Gross Weight	Approximately 182KG	
Dimensions	750*304*710mm	
Protection Rating	IP20
